# **SAFER TOWN CENTRES PROJECT**

The Safer Town Centres Project is enhancing community spirit between businesses and encourages unity within town centres. This has led to a greater feeling of security for business staff, a reduction in petty crime and nuisance behaviour and has promoted a “feel good factor” for all members of the community.

The project distributes, installs and monitors free of charge AlertBox warning communicators and implements strategic radio links via hand held two-way radio units to the members of town centre business associations.

Following the successful launch of the project at Eastern Enfield, it has now been extended Boroughwide.

Any local business or retailer wishing to take part can contact their local business association or EBRA at:
